

# MANAGING RISKS IN CDM PROJECTS IN AFRICA – SPOTLIGHT ON CARBON CONTRACTS

“Unlocking Low Carbon Africa”

By

Lloyd John Chingambo

Africa Carbon Forum . Nairobi . Kenya  
March 3-5, 2010

# Consultative Process Leading to the Creation of the GTCEF

We closely worked with the following:

- Various Zambian Banks
- Pension Funds
- Insurance Companies
- Regulatory Institutions (BoZ; SEC; PIA)
- Project promoters
- USAID/PROFIT ZAMBIA
- Donor Community
- Conservation Farming Unit.

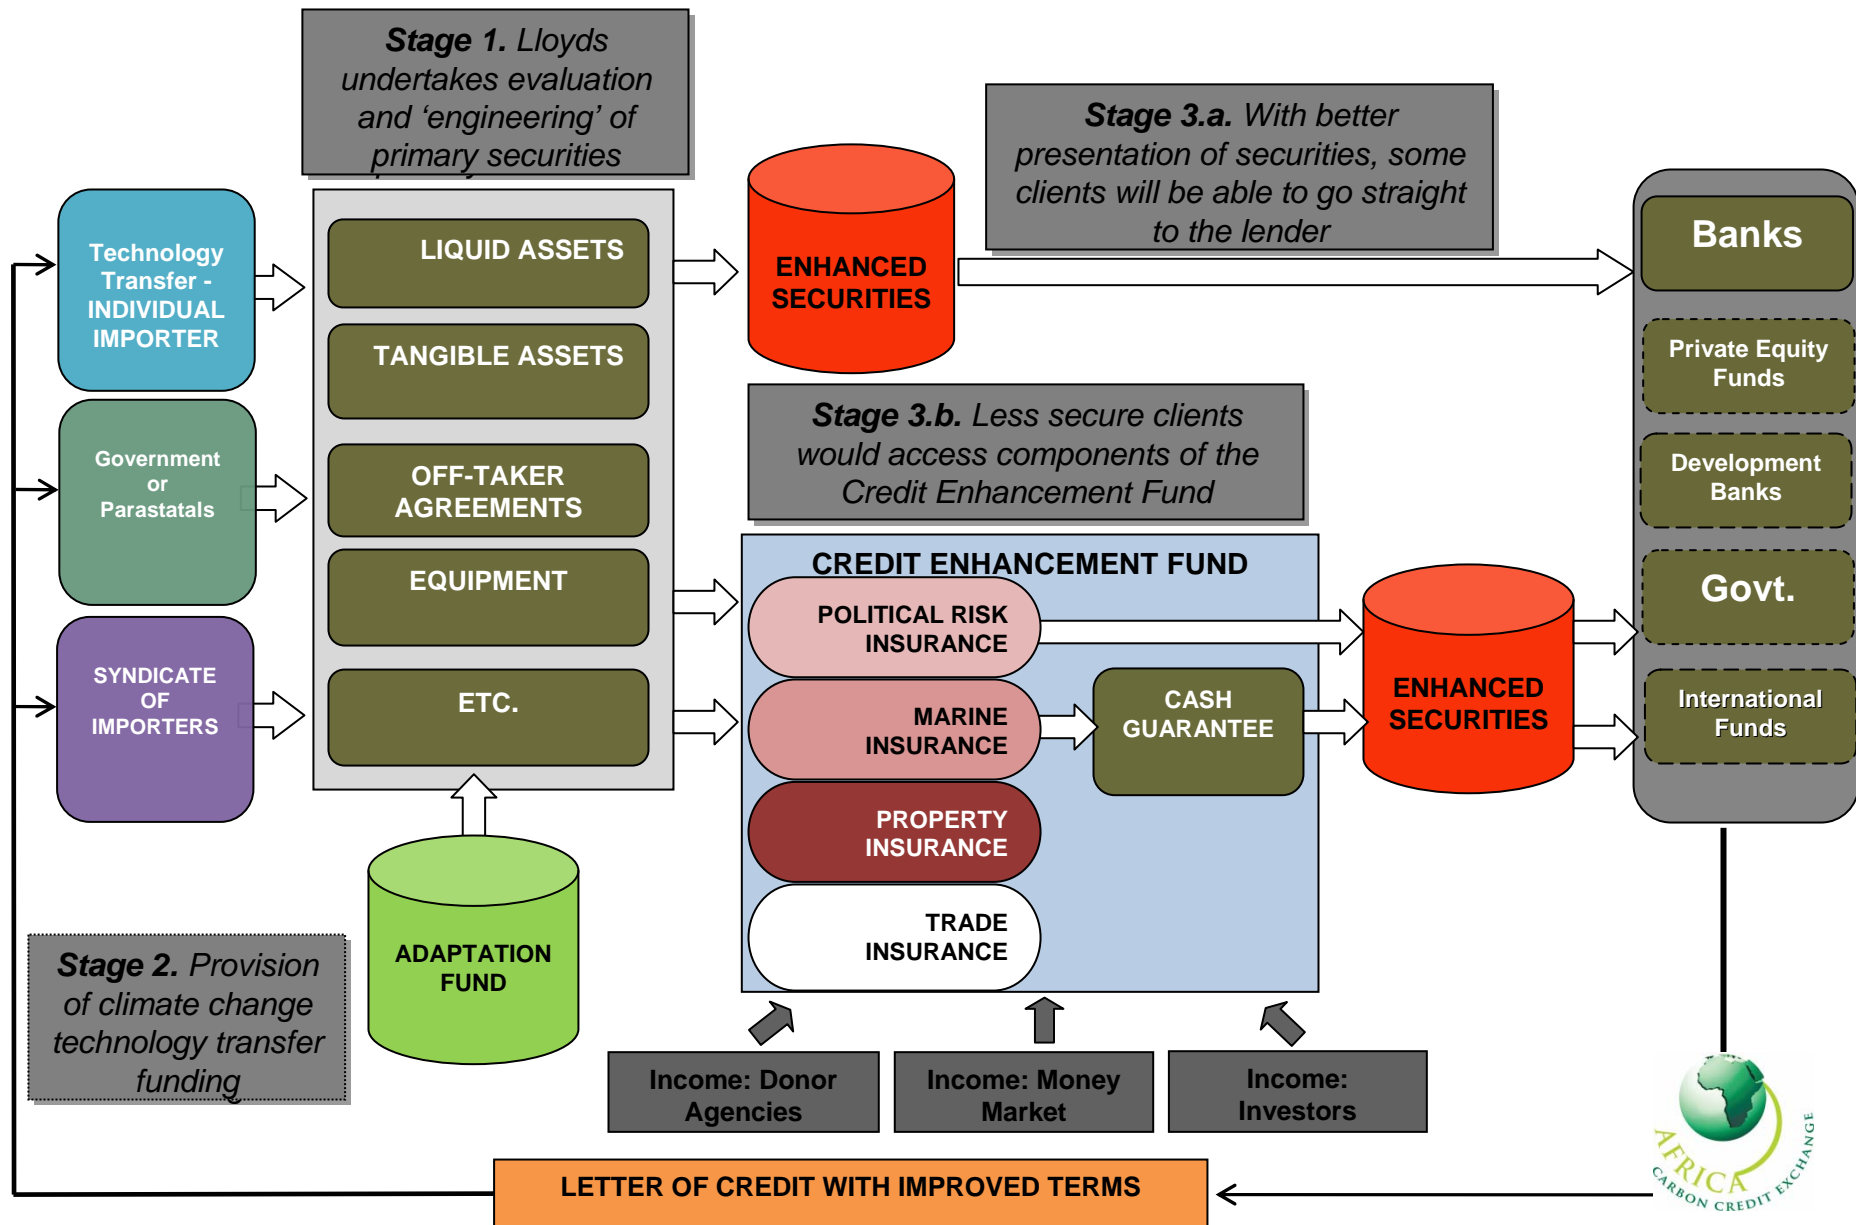

# Access to Finance and Risk Management in African CDM Projects

## GREEN TECHNOLOGY CREDIT ENHANCEMENT FUND

- ❑ Innovative risk-sharing mechanism to unlock commercial and institutional financing for importation of low carbon technologies into Sub-Saharan Africa.
- ❑ Provides a series of financial and ‘moral’ guarantees that reduce the risk of lending to non-traditional sectors and players:
  - Financial re-engineering of underlying collateral
  - Range of insurance products to mitigate risk
  - Cash or other guarantees if needed.
- ❑ It offers a negotiated and agreed position with the Financial Sector.
